Projects

☒ Zomato-Dataset-Analysis

Worked on Zomato data, did cleaning and extracting insights and plotting Graphs and maps to visualize the finding, where I used Python library like **Matplotlib, Seaborn, Pandas, Numpy, Plotly, Folium, WordCloud & Regex** and etc.

☒ India-Covid-19-Data-Analysis

In this project I analyze the covid-19 **Confirmed, Death, Cured** cases in Indian states. Where I found that the most cases were arisen in **Maharashtra, Kerala and Karnataka** states in month of **April 2021 to June 2021** where recovery rate is more than **97%**.

☒ Project-on-MySQL

Created a Multiple Table and ran sum of the **Query** which includes **Aggregate Function, Joint & Sub Query**.

- **Please find additional projects below :**

- 1) **Tableau-DashBoard**
- 2) **Power-BI-DashBoard**
- 3) **Project-on-Movie-Web-Scrapping**
- 4) **Timesjobs-web-scrapping**
- 5) **Project-on-YouTube-API-**
- 6) **Project-on-Adv-Excel**
